SECTION 1: Identification

1.1. Product identifier
Product form : Substance
Substance name : Carbon Dioxide (Compressed)
Chemical name : Carbon Dioxide
CAS-No. : 124-38-9
Product code : CA-1001-07262
Formula : CO₂
Synonyms : Carbonic acid gas / Carbon dioxide in coal mines / Carbon dioxide / ALIGAL™ 2

1.2. Recommended use and restrictions on use
Recommended uses and restrictions : Protective Atmosphere for Food and Beverages; Semiconductor Purposes; Manufacture of Substances

1.3. Supplier
Air Liquide Canada Inc.
1250, René Lévesque West Blvd. Suite 1700
H3B 5E6 Montreal, QC - Canada
T 1-800-817-7697
www.airliquide.ca

1.4. Emergency telephone number
Emergency number : 514-878-1667

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture
Classification (GHS-CA)
Gases under pressure : Liquefied gas  H280
Full text of H statements : see section 16

2.2. GHS Label elements, including precautionary statements
GHS-CA labelling
Hazard pictograms (GHS-CA) :

Signal word (GHS-CA) : Warning
Hazard statements (GHS-CA) : H280 - Contains gas under pressure; may explode if heated
OSHA-H01 - May displace oxygen and cause rapid suffocation
CGA-HG01 - May cause frostbite
CGA-HG03 - May increase respiration and heart rate
Precautionary statements (GHS-CA) : P501 - Dispose of contents/container in accordance with local/regional/national/international regulations.
P403 - Store in a well-ventilated place
P261 - Avoid breathing dust/fume/gas/mist/vapours/spray
P202 - Do not handle until all safety precautions have been read and understood
P308+P313 - IF exposed or concerned: Get medical advice/attention
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P280 - Wear protective gloves/protective clothing/eye protection/face protection
P271 - Use only outdoors or in a well-ventilated area
P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing
P302 - IF ON SKIN:
CGA-PG02 - Protect from sunlight when ambient temperature exceeds 52 °C/125 °F
CGA-PG05 - Use a back flow preventive device in the piping
CGA-PG06 - Close valve after each use and when empty
CGA-PG10 - Use only with equipment rated for cylinder pressure
CGA-PG14 - Approach suspected leak area with caution
CGA-PG21 - Open valve slowly

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS-CA)
No data available

SECTION 3: Composition/information on ingredients

3.1. Substances
Name : Carbon Dioxide (Compressed)
CAS-No. : 124-38-9

<table>

<td></td>
</tr>
</tbody>
</table>

Full text of hazard classes and H-statements : see section 16

3.2. Mixtures
Not applicable

SECTION 4: First-aid measures

4.1. Description of first aid measures
First-aid measures after inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, seek medical advice.
First-aid measures after skin contact : Thaw frosted parts with lukewarm water. Do not rub affected area. Get immediate medical advice/attention.
First-aid measures after eye contact : Immediately flush eyes thoroughly with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical advice/attention.
First-aid measures after ingestion : Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects (acute and delayed)
Symptoms/effects after inhalation : May displace oxygen and cause rapid suffocation. May increase respiration and heart rate.
Symptoms/effects after skin contact : May cause frostbite.
Symptoms/effects after eye contact : Contact with the product may cause cold burns or frostbite.
Symptoms/effects after ingestion : Ingestion is not considered a potential route of exposure.
Symptoms/effects upon intravenous administration : Not known.
Chronic symptoms : Adverse effects not expected from this product.

4.3. Immediate medical attention and special treatment, if necessary
Other medical advice or treatment : If you feel unwell, seek medical advice. If breathing is difficult, give oxygen.

SECTION 5: Fire-fighting measures

5.1. Suitable extinguishing media
Suitable extinguishing media : Use extinguishing media appropriate for surrounding fire.

5.2. Unsuitable extinguishing media
Unsuitable extinguishing media : Do not use water jet to extinguish.

5.3. Specific hazards arising from the hazardous product
Fire hazard : The product is not flammable.
Explosion hazard : Product is not explosive. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.
Hazardous combustion products : None

5.4. Special protective equipment and precautions for fire-fighters
Firefighting instructions : In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion. Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Exposure to fire may cause containers to rupture/explode.
Protection during firefighting : Standard protective clothing and equipment (e.g., Self Contained Breathing Apparatus) for fire fighters. Do not enter fire area without proper protective equipment, including respiratory protection.
SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Ensure adequate ventilation.

Personal Precautions, Protective Equipment and Emergency Procedures: EVACUATE ALL PERSONNEL FROM AFFECTED AREA. Use appropriate protective equipment. If leak is on user’s equipment, be certain to purge piping before attempting repairs. If leak is on a container or container valve contact the closest Air Liquide Canada location.

6.2. Methods and materials for containment and cleaning up

For containment: Try to stop release if without risk.

Methods for cleaning up: Dispose of contents/container in accordance with local/regional/national/international regulations.

6.3. Reference to other sections

For further information refer to section 8: “Exposure controls/personal protection”

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Do not handle until all safety precautions have been read and understood. Use only outdoors or in a well-ventilated area.

Hygiene measures: Do not eat, drink or smoke when using this product.

Additional hazards when processed: Pressurized container; Do not pierce or burn, even after use. Use only with equipment rated for cylinder pressure. Close valve after each use and when empty.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: Comply with applicable regulations.

Storage conditions: Do not expose to temperatures exceeding 52 °C/125 °F. Keep container closed when not in use. Protect cylinders from physical damage; do not drag, roll, slide or drop. Store in well ventilated area.

Incompatible products: None known.

Incompatible materials: None known.

SECTION 8: Exposure controls/personal protection

## 8.2. Appropriate engineering controls

### Environmental exposure controls

Ensure exposure is below occupational exposure limits (where available). Provide adequate general and local exhaust ventilation. Systems under pressure should be regularly checked for leakages. Oxygen detectors should be used when asphyxiating gases may be released. Consider the use of a work permit system e.g. for maintenance activities.

### 8.3. Individual protection measures/Personal protective equipment

#### Personal protective equipment:

- Gloves.
- Safety glasses.
- Protective clothing.
- Safety shoes.

#### Hand protection:

Wear working gloves when handling gas containers.

#### Eye protection:

Wear safety glasses with side shields.

#### Skin and body protection:

Wear suitable protective clothing, e.g. lab coats, coveralls or flame resistant clothing.

#### Respiratory protection:

None necessary during routine operations. See Sections 5 & 6

#### Thermal hazard protection:

None necessary during routine operations.

#### Other information:

Wear safety shoes while handling containers.

## SECTION 9: Physical and chemical properties

ALIGAL 2™
Safety Data Sheet
according to the Hazardous Products Regulation (February 11, 2015)

Odour threshold : No data available
pH : No data available
Relative evaporation rate (butylacetate=1) : No data available
Relative evaporation rate (ether=1) : Not applicable
Molecular mass : 44.01 g/mol
Melting point : No data available
Freezing point : -56.6 °C
Boiling point : No data available
Flash point : Not applicable (non-flammable gas)
Critical temperature : 31.1 °C
Auto-ignition temperature : Not applicable
Decomposition temperature : No data available
Flammability (solid, gas) : See Section 2.1 and 2.2
Vapour pressure : 5730 kPa
Vapour pressure at 50 °C : No data available
Critical pressure : 7381.8 kPa
Relative density : 0.82
Relative gas density : 1.52 Heavier than air
Solubility : Water: 90 %
Log Pow : No data available
Viscosity, kinematic : Not applicable
Viscosity, dynamic : Not applicable
Explosive properties : Not applicable (non-flammable gas).
Oxidising properties : None.
Explosive limits : Not applicable (non-flammable gas)

9.2. Other information
Sublimation point : -78.5 °C
Additional information : Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level

SECTION 10: Stability and reactivity
10.1. Reactivity
Reactivity : None known.
Chemical stability : Stable under normal conditions.
Possibility of hazardous reactions : None known.
Conditions to avoid : None under recommended storage and handling conditions (see section 7).
Incompatible materials : None known.
Hazardous decomposition products : Under normal conditions of storage and use hazardous decomposition products should not be produced.

SECTION 11: Toxicological information
11.1. Information on toxicological effects
Acute toxicity (oral) : Not classified
Acute toxicity (dermal) : Not classified
Acute toxicity (inhalation) : Inhalation:gas: Not classified.

**TDG Special Provisions**

Refillable pressure receptacles if (a) the working pressure in each receptacle is less than 5,000 KPa; (b) the capacity of each receptacle is less than 12 L; (c) each receptacle has a minimum burst pressure of (i) at least 3 times the working pressure, when the receptacle is fitted with a relief device, or (ii) at least 4 times the working pressure, when the receptacle is not fitted with a relief device; (d) each receptacle is manufactured from material that will not fragment upon rupture; (e) each detector is manufactured under a quality assurance program; ISO 9001:2008 is an example of a quality assurance program. (f) the detectors are transported in strong outer means of containment; and (g) a detector in its outer means of containment is capable of withstanding a 1.2 m drop test without breakage of the detector or rupture of the outer means of containment. (2) Part 5 (Means of Containment) does not apply to radiation detectors that contain these dangerous goods in non-refillable pressure receptacles and that are included in equipment, if (a) the conditions set out in paragraphs (1)(a) to (e) are met; and (b) the equipment is contained in a strong outer means of containment or the equipment affords the detectors with protection that is equivalent to that provided by a strong outer means of containment. (3) These Regulations, except for Part 1 (Coming into Force, Repeal, Interpretation, General Provisions and Special Cases) and Part 2 (Classification), do not apply to radiation detectors that contain these dangerous goods in non-refillable pressure receptacles, including detectors in radiation detection systems, if the detectors meet the requirements of subsection (1) or (2), as applicable, and the capacity of the receptacles that contain the detectors is less than 50 mL.

**Explosive Limit and Limited Quantity Index**

- Explosive Limit: 0.125 L
- Limited Quantity: 75 L

**Transport Document Description**

- DOT NA no.: UN1013
- UN-No. (DOT): 1013
- Transport Document Description: UN1013 Carbon dioxide, 2.2
- Proper Shipping Name (DOT): Carbon dioxide
- Contains Statement Field Selection (DOT): DOT_TECHNICAL - Proper Shipping Name - Technical (DOT)

**Class (DOT)**

- 2.2 - Class 2.2 - Non-flammable compressed gas 49 CFR 173.115

**Division (DOT)**

- 2.2

**Hazard labels (DOT)**

- 2.2 - Non-flammable gas

**Emergency Response Guide (ERG) Number**
